NOTE

This list was compiled to aid the staff of the ABSEES project in the compilation of future volumes of the American Bibliography of Slavic and East European Studies, as well as to provide the reference librarians in the European Division with a valuable reference guide to books published on East European subjects. The approximately 5,500 titles included in this publication have appeared in the American Bibliography of Slavic and East European Studies for 1986, 1987, 1988 or 1989. The titles are listed in alphabetical order. Each citation is followed by brackets containing the ABSEES volume in which the title appeared and the ABSEES subject classification code assigned to it. The subject code "0" signifies that only a chapter (or chapters) from the book was cited and not the book itself. A copy of the ABSEES subject classification codes is provided at the end of the publication.
